NEAR DETECTOR:

- Smooth running
 - Decent, slightly warm temperatures
- Magnetic field is OFF
 - As of today
 - For final calibrations

Live time: 99.55% of protons, 98.29% of seconds

- Detector will be on and off over summer to dodge power outages
 - We need to know if they move
- Also, substantial cleaning and preventative maintenance

FAR DETECTOR:

- Smooth running
- MINOS collaboration came to visit

Live time: 99.84% of protons, 99.52% of seconds

- Far Detector will be on for most all of the shutdown
 - Atmospheric and cosmic data still important
 - Some preventative maintenance will take place
- Field will be reversed for the first time in two years
 - In preparation for reversed horn current running, establish calibrations
