

MINOS+ All Experimenters' Meeting Report

A.P. Schreckenberger
2015-10-12

Detector Readiness

- ▶ MINOS+ is ready for the return of beam
 - ▶ Shutdown tasks completed
- ▶ FD crash last night required chip swap
 - ▶ Happening right now (as of noon)
- ▶ To do list:
 - ▶ Repair TCU at FD so we have at least one more spare
 - ▶ Minders at ND with hot channels sent out for repair
 - ▶ Expect them to be returned soon – so not an issue
 - ▶ ND has a dead channel as well
 - ▶ Attempt a fix today or tomorrow

Other things!

- ▶ Saw the Hawks Saturday! Two words, Artemi Panarin
- ▶ Mentioned last week
 - ▶ Two new remote control rooms at UT and Cincinnati
 - ▶ Groups carry a lot of MINOS+ FTEs
- ▶ A lot of work done configuring new machines and preparing the detectors during shutdown
 - ▶ We appreciate all the support!
