

# MINOS Status Report

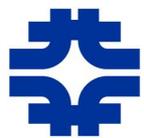

Benton Pahlka

## NEAR DETECTOR

- Live Time: 99.1% good physics data
- POT Fraction: 99.4% good physics data
- ◆ As of Sept. 30<sup>th</sup>, magnet running in antineutrino mode successfully
- ◆ Return to neutrino mode this Wednesday
- ◆ During the Wednesday shutdown:
  - Replace minder board
  - Replace humidity sensor
- ◆ Welcome “new” electronics experts:
  - Cesar Castromonte
  - Dun Zhang
  - Leo Aliaga

# MINOS Status Report

## FAR DETECTOR

Live Time: 94.3% good physics data  
POT Fraction: 95.5% good physics data

- ◆ Generally smooth running
- ◆ A few hot and cold chips
- ◆ Overheated fan, small PVIC issue
- ◆ Replaced 6V power supply
