

# MINOS+ Status Report

Donatella Torretta  
All Experimenters' Meetings  
November 10, 2014

# Near Detector

## DAQ news

- DAQ is running well
- One failure on Sunday night; recovered within 10 minutes
- Still dealing with cooling issues in the new DAQ rack:
  - running with back door open
  - a plenum (from the air duct intake) is being worked on to allow better air circulation in the rack

## Detector news

- ALL front and back new racks filters have been installed in the electronics racks
- Two hot channels and two dead channels: Minders will be replaced at the next opportunity

# Far Detector

## DAQ news

- DAQ is running very well

## Electronics/Detector news

- Replaced HV LeCroy controller in MainFrame 4
- NO other hardware issues known
